

WHAT YOU CAN

. . . ALL THE PRODUCTS YOU NEED FROM A SINGLE SOURCE.

Robbins offers the largest variety of lightning protection parts and materials available from any single source. On standard items, and even on special items, we can guarantee you the fastest possible delivery. Materials are available for residential, commercial, institutional, government, warehouses, farm buildings, churches, hospitals, airports, schools, multi-story buildings, industrial, trees and smoke stacks through Robbins to fill your lightning protection requirements. One order, one responsibility will save you time and money.

**All Materials Meet or Exceed
UL 96/96A, NFPA 780 and LPI 175/177 Requirements**

. . . SERVICE THAT'S SURE AND SATISFYING.

The guesswork is taken out of your delivery date when you plan your purchasing with Robbins. You get the materials you need when and where needed. Most shipments are processed the same day we receive your order.

. . . THE QUALITY AND RELIABILITY YOU WANT FROM THE NATION'S LEADING MANUFACTURER OF LIGHTNING PROTECTION MATERIALS.

The Robbins name is a symbol of quality and dependability. We have a reputation for distribution of top grade, top value materials which meet the Underwriters Laboratories, the Lightning Protection Institute and National Fire Protection Association specifications. Our long time association with architects and electrical contractors has established Robbins as THE place to come for the right product to answer your lightning protection needs. You can purchase with confidence, when you buy from Robbins.

EXPECT FROM ROBBINS

... THE SPECIALIZED HELP YOU REQUIRE TO ASSIST WITH YOUR PROBLEMS.

It is not enough to sell the product, at least that's the way we feel. Robbins offers material manufactured to Underwriters Laboratories specification and all methods of installation are designed to meet the requirements as set forth by Underwriters Laboratories, the Lightning Protection Institute, and the National Fire Protection Association. The estimating division of our engineering department will be happy to work with you either by obtaining plans, if available, or working directly with you using your blueprints. Our drafting team uses current Auto CAD® versions to prepare complete detailed shop drawings for submittal and for use in installing our materials. Call Robbins first when you need special help. This is the place to get it.

... STREAMLINED OPERATION BACKED BY YEARS OF EXPERIENCE.

Robbins experience predated much of the vast lightning protection industry as we know it today. Yet in product lines, methods and specialized services, we endeavor to keep a step ahead of today's requirements. The company was founded in 1900 by the Moore Brothers and has been at its present location at 124 East Second Street, Maryville, Missouri, since 1904. Actually, the name Robbins is only 82 years old, but company tradition extends back to 1900, giving us over 110 years of lightning protection heritage and know-how.

... A PERSONAL INTEREST IN SERVING YOU AND SERVING YOU RIGHT.

Robbins people have a personal interest in wanting to maintain customer good will, for it not only protects their job, it protects their company. Whatever your requirements might be, catalog information or quotation service, counsel on problems or delivery of an order, you get this same friendly courteous service from every Robbins employee.
